

13/5/15

• adds $\frac{1}{2}$ the value of what it precedes

$| - | = 1$ so $\cdot = \frac{1}{2} (\uparrow) \therefore \downarrow + \cdot = \frac{1}{2} \downarrow \uparrow$ or

or
3 quavers

$\uparrow = \frac{1}{2}$ so $\cdot = \frac{1}{4} \therefore \downarrow = \frac{3}{4}$
